

Data Wants to be Open

...or a very quick presentation on open data

“...information wants to be free...”

“ On the one hand information wants to be expensive, because it's so valuable. The right information in the right place just changes your life.

On the other hand, information wants to be free, because the cost of getting it out is getting lower and lower all the time. So you have these two fighting against each other.

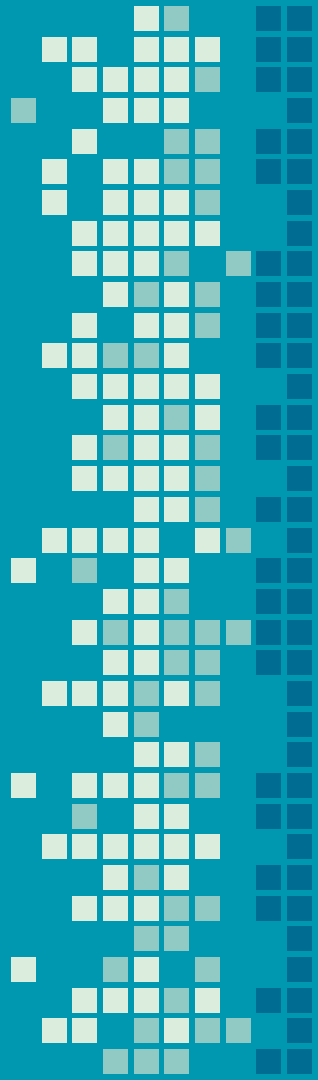

Stewart Brand, 1984

What's Open Data?

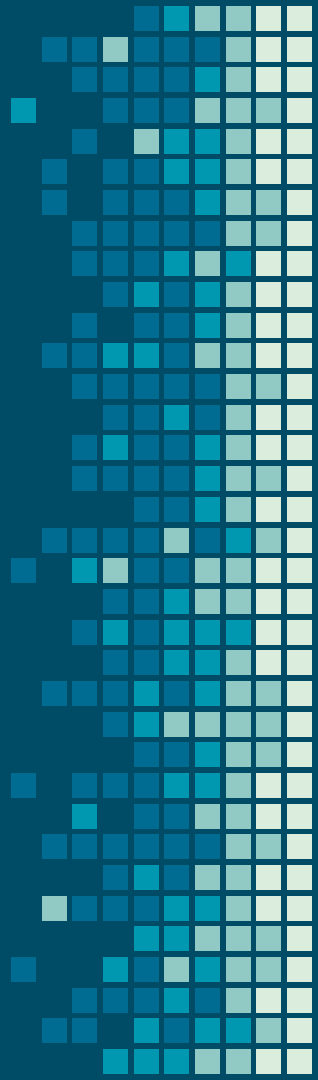

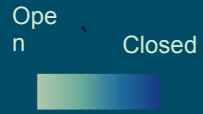

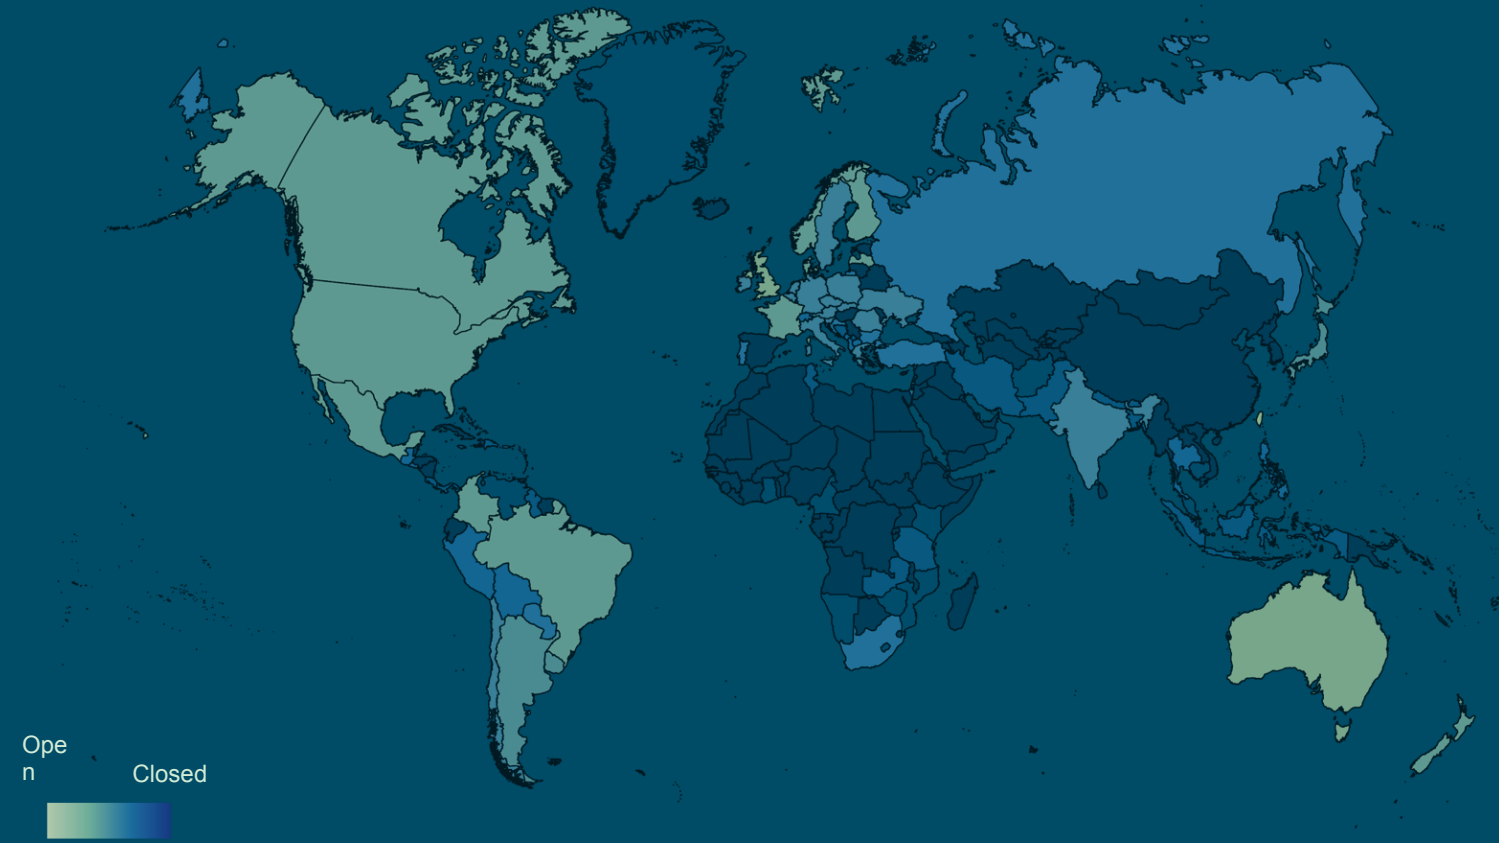

OPENdata

- Availability and Access
- Re-use and Redistribution
- Universal Participation

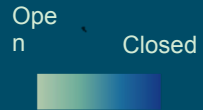

All this allows for *interoperability*

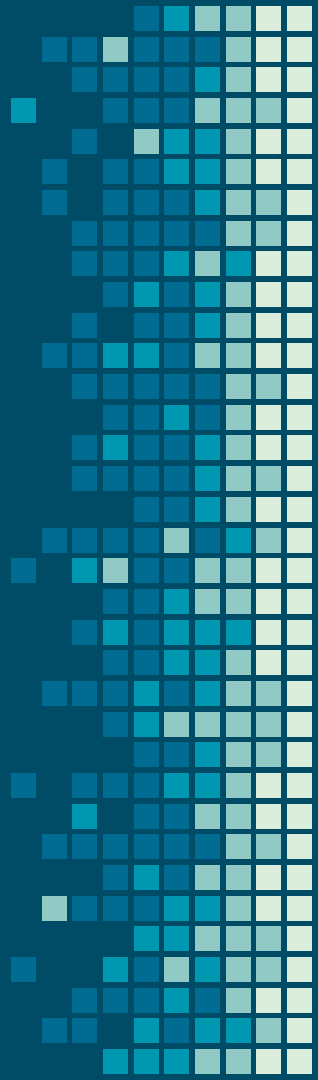

Global Open Data Index

Global Open Data Index

What is the value?

Do I use open data?

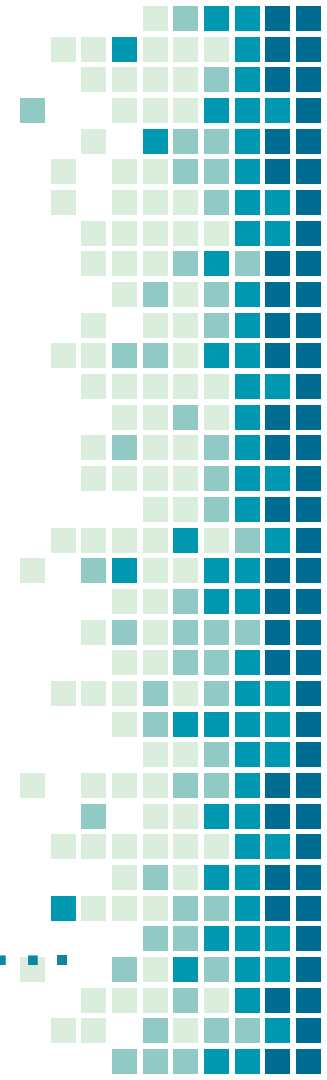

National

- **Listed Buildings**
- **Landscape Character Areas**
- **Ancient Woodland**
- **Statutory Designations**
- **Census**
- **data.gov.uk**
- **ONS**
- **OpenStreetMap**
- **Open Rivers**
- **Environment Agency**

Local

- **Bristol is Open**
- **Bristol - Know Your Place**
- **Open Data Bristol**
- **Bath Hacked - DataStore**
- **B-Open (Bristol City Council)**

Probably...

THANKS!
