Landscape Institute Awards 2018
Duchess of Cambridge’s forest-bathing garden for Chelsea Flower Show

Kate’s forest bathing, Harry’s meditating - wellness is a right royal fad

The Windsors are going all Gwyneth, building ‘floating’ yoga studios and giving up caffeine, and there is suggestion that it might be Meghan’s influence.

Engaging with partners #LandscapeUnited
21st century landscape professional
- Education, talent & skills
Entry standards, talent & relevance

**APPRENTICESHIPS**
Creating new routes into the profession to increase numbers entering profession and support diversity agenda.

**BROAD PROFESSION**
Ensure the Landscape Institute is the professional home to a broad range of landscape professionals.

**EDUCATION SPREAD**
Focus to ensure education routes are more evenly spread across the UK. International links will also be explore in the future.

**DIVERSITY AND INCLUSION**
Support to ensure diversity and inclusion strategy is adopted by the profession.

**FUTURE PROOF**
Support and develop the profession to enable it is future proofed.
Defining the future of the profession

- Education Review
- State of Landscape survey
- Landscape Management Leadership forum
- Routes to Licentiate working group
- Entry standards modernisation
This profession is getting more diverse

Consulting our members on membership
Planning to bring to next AGM (likely November 2019)

Proposed Technician grade
• 91% (218/238) of respondents agree with new “Technician” category
• 68% (163/238) of respondents think this category should be allowed to vote
• 69% (166/239) of respondents think Technician members should be entitled to use post-nominals (E.g. “LI Tech”)

Name Change of “Licentiate” to “Associate”
• 85% (202/240) of respondents agree with the proposed change
• 69% (166/239) of respondents think Associate members should be entitled to use post-nominals (e.g. LI Assoc)
Proposed dual track membership system

To be introduced after 2020 for new members. **No change for existing members**

- **Chartered Landscape Architect**
  
  _must have design, planning & implementation competency areas equivalent to IFLA, employer & international expectations_

- **Chartered Landscape Professional**
  
  _more flexible approach to reflect other landscape disciplines_

---

**Diagram:**

- A landscape professional
  - All professional competencies at some level
  - All landscape competencies at some level
  - A handful of specialist competencies based on your chosen specialism

---

What next

Key Consultations

• **February**: What areas of competence should we include?

• **Summer 2019**: Drafting our new competency framework

• **AGM November 2019 Leicester** – Approve new membership grade

• **Late 2019**: What levels of skills do we need to enter at each grade of membership? How should we assess these skills/competencies?

• **From 2020**: Put new system in place, with training, new digital support & communication

• **From 2021**: New university accreditation
Landscape Architecture
A Diploma Course Established at Reading University

When the Royal Horticultural Society so generously and successfully organised the International Conference on Garden Planning and Allied Subjects, it was intended that the proceedings of the conference should be published in a series of pamphlets. The Conference included a number of lectures and discussions on various aspects of garden planning and design, with particular attention given to the principles and practices of landscape architecture. The lectures and discussions were attended by a large number of participants, including landscape architects, horticulturists, and garden designers, who shared their knowledge and insights on the subject.

Anticipation in this direction has already been realised in the publication of "Landscape Architecture," a collection of papers presented at the Conference. The publication includes a wide range of topics, from the historical development of landscape architecture to the latest trends in garden design. Each paper is carefully selected to provide a comprehensive overview of the field, with contributions from leading experts in the field.

The book is divided into several sections, each focusing on a particular aspect of landscape architecture. The first section covers the historical development of the field, tracing its evolution from ancient times to the present day. The second section explores the principles and practices of landscape architecture, with a focus on design, construction, and maintenance. The third section examines the role of landscape architecture in urban planning and development, while the fourth section looks at the future of the field and the challenges and opportunities that lie ahead.

This collection of papers is an invaluable resource for anyone interested in landscape architecture, whether they are students, professionals, or enthusiasts. The book provides a comprehensive overview of the field, and the insights and knowledge shared by the contributors will be of great value to anyone seeking to deepen their understanding of the subject.

WINDOLITE SUPERSESSES GLASS IN THE GARDEN
Windolite, the only practical substitute for glass, protects all the light but keeps out cold and wind.

It is the perfect material for frames and windbreaks of any size or shape.

Light—Flexible—Unbreakable
Easy to cut and fix.

Windolite gives a new lease of life to old glazing

Use it yourself and stock it for resale

WINDOLITE LTD., (Dept. 0), Harlow, Essex
